Professional Engineer – Florida No. 48935

### EXPERIENCE

Mr. Landers has more than twenty-seven (27) years of diverse Construction Engineering and Inspection (CEI) and operations management experience. During his career he has served in the capacity as Chief Operating Officer for OOCEA, CEI Construction Resident Engineer for OOCEA and FDOT Projects, Senior Project Engineer for FDOT and local municipalities, Operations Manager, as well as Roadway Contractor. His experience includes all aspects of roadway and bridge construction inspection, construction contract administration, management of CEI contracts, CPM scheduling, utility coordination, environmental compliance and plans review.

Mr. Landers CEI and construction management experience includes:

**Assistant County Engineer, Construction Management (3/2015 – Present)**  
Responsible for professional management of all construction activities related to the County's Roadway Improvement Program which includes the following: Develop, review and implement the County's Roadway Construction Program and manage the day-to-day activities of the construction management team. Track scheduled progress of construction activities, report all aspects of project progress and issues to the County Engineer, and prepare solutions to issues for construction projects. Evaluate information, make decisions and coordinate the program and the construction projects in the best interest of the County. Ensure that established contract administration procedures are being followed and documented by the construction management team.

**Central Florida Area Manager/Senior Project Engineer (6/2014 – 02/2015).**  
Mr. Landers served Interra Services, Inc as the Central Florida Area Manager. He was responsible for marketing work through meeting with clients, writing proposals and successfully managing projects to completion.

**Central Florida Area Manager/Senior Project Engineer (10/2011 – 02/2013).** Mr. Landers served HDR Engineering where he managed the work of several Project Engineers / Project Administrators and Inspectors. During this time he managed several CEI Contracts and Construction Projects from Lake City to Casselberry. He was also responsible for marketing work through meeting with clients, writing proposals and successfully managing projects to completion

**Operations Manager/Senior Project Engineer (02/2010 – 4/2011).** Mr. Landers served Metric Engineering as Operations Manager assisting in the management of the day-to-day operations of the Central Florida Office.

**Director of Construction Services/Senior Project Engineer (09/2007 – 02/2010).** Mr. Landers served Mehta Engineering as the Director of Construction Services where he managed the work of four Project Engineers / Project Administrators and over 20 Inspectors. During this time he managed several multi-million dollar CEI Contracts and Construction Projects from

Pensacola to Brevard County. He was also responsible for marketing work through meeting with clients, writing proposals and successfully managing projects to completion.

**Program Manager/Senior Project Engineer (07/2006 – 09/2007).** Mr. Landers served this role for CH2M Hill Construction Services at its newly opened branch in Orlando.

**Orlando-Orange County Expressway Authority Chief Operating Officer (08/2004 – 07/2006).** Mr. Landers served as the Chief Operating Officer for the Orlando-Orange County Expressway Authority responsible for a \$1-billion, 5-year construction program and collecting over \$200 million annually in tolls. He was also responsible for maintenance activities and expressway operations for the entire expressway system that includes over 100 centerline miles. (Contact: OOCEA Deputy Executive Director, Joe Berenis, PE)

**Resident Construction Engineer (09/2000 – 08/2004).** Mr. Landers served the FDOT District 5 as a Resident Construction Engineer responsible for highway and bridge construction projects in Orange, Osceola, and Seminole Counties of Florida. He managed more than 20 construction contracts and four CEI contracts at any given time. He ensured that all projects were completed in compliance with plans and specifications and that proper inspection achieved. He met with contractors and public officials and responded to public complaints. He evaluated and negotiated time extension requests, claims and contract modifications. Coordinated and administered personnel affairs of over 40 employees.

**Senior Project Manager (05/1997 – 02/2000).** Mr. Landers worked for Ranger Construction as a Sr. Project Manager. He was responsible for estimating, planning, scheduling, and managing major, multi-million dollar road and bridge projects in the Central and North Florida area. He prepared and negotiated contract modifications with the owner's representatives. He was also responsible for winning contracts through successful estimating and completing those projects within budget in order to maximize profit. He accomplished the following projects:

**Senior Project Engineer (01/1991 – 05/1997).** Mr. Landers worked for Florida Department of Transportation. He completed 18 months of training in the Department's Professional Engineer Training Program. After completing training, Mr. Landers was assigned several multi-million dollar projects as Project Engineer/Senior Project Engineer. Mr. Landers was responsible for overseeing construction activities, coordinating necessary design modifications, tracking and analyzing construction claims, tabulating job progress and pay quantities, and supervising and training engineering technicians.
