

RESUME

Kevin Sammon

419 Pinellas Road
Winter Haven, Florida 33884
Home 863-318-0453
Cell 863-206-8910

Objective: To become a member of the Florida Department of Transportation Dispute Resolution Board.

Skills: Mr. Sammon has over forty years of experience in different facets of the design/construction industry. He has worked for architectural firms, engineering firms, general contractors and construction consulting firms.

Education: Pratt Institute, Brooklyn, New York
Bachelor of Building Sciences Program

Experience:

Owner

2009

Haven Consulting, LLC.

Winter Haven, Florida

I formed my own consultancy and am currently performing work for clients involved in airport runways, taxiways and associated work, military hospitals and private civil works. Work involves estimating, change order reviews and contract interpretations.

Senior Estimator

2003 – 2008

Project Controls/Management, Inc.

Orlando, Florida

Responsible for the production and accuracy of estimates, primarily for aviation and healthcare. Aviation projects included the taxiways, aprons and terminal building for the proposed new South Terminal at Orlando International Airport, new Terminal 'C' at Raleigh Durham International Airport, terminal renovations at Nashville International Airport and the parallel runway 6R-24L Project at the Southwest Florida International Airport. Healthcare projects included many new clinic facilities for the Navy and Air Force through Naval facilities Engineering Command (NAVFAC) and the US Army Corps of Engineers (USACE).

Director of Project Controls

1996 – 2003

Boyken International

Atlanta, Georgia

Responsible for the production and accuracy of all estimates and schedules produced by the Orlando office for a wide variety of project types, including aviation and healthcare. Accomplished many aviation projects at Orlando International Airport including cross-over taxiway bridges, taxiways, new ARFF facilities and preliminary work on the proposed South Terminal. Provided multiple estimates for the Midfield Terminal Complex at Southwest Florida International Airport.

Resume of Kevin Sammon

Manager of Project Controls

1987 – 1996

Greiner Engineering

Tampa, Florida

Greiner was the program manager for the Hillsborough County Aviation Authority. Mr. Sammon was responsible for all estimating, scheduling and change order negotiations for Greiner's Tampa International Airport field office. Over \$1 billion in construction in place during this period. Projects included two new airside terminals, expansion and complete renovation of the landside terminal, long term parking garage, aircraft maintenance facility, runways and taxiways.

Senior Estimator

1980 – 1987

J. Allen, Inc.

Tampa, Florida

Responsible for estimating and purchasing for this Tampa general contractor. Projects primarily included healthcare, multi-family housing and educational.

Chief Estimator

1975 – 1980

Spezio Construction

Rochester, New York

Responsible for estimating and project management for this contractor specializing in highway/heavy construction. Projects included road widening and reconstruction, new road construction and bridges throughout western New York State.

Estimator/Project Manager

1969 – 1975

Cromwell Construction

Rochester, New York

Responsible for estimating and project management for this contractor specializing in water and wastewater plants and pumping facilities throughout western New York State.

Field Engineer/Assistant Superintendent

1967 – 1969

Fehlhaber Corporation/Horn Construction JV

Albany, New York

Responsible for field layout and engineering for this joint venture constructing foundations for the new State off ice mall complex. This was a \$99 million foundation package.

Draftsman/Field Inspector/Construction Administrator

1960 – 1967

Evans and Delahanty, Architects

New York, New York

Began as a draftsman and evolved into the company's field representative, performing various construction administration (CA) activities.

Membership: American Association for the Advancement of Cost Engineering International.

Certified Cost Consultant (CCC) since 1993.

Certification Number 1321
